OBJECTIVE

To work as a Developer in information technology, applying my skills in React, Next.js, TypeScript, Node.js and solid principles of usability, performance and software architecture. I aim to contribute scalable, innovative solutions that create real value for the company and its users.

SUMMARY

Developer with over 5 years of experience building modern interfaces, scalable web systems and high-performance tools. Specialized in React, Next.js, TypeScript, Node.js, HTML, CSS and JavaScript, with solid experience in front-end architecture, reusable components, API integration and a focus on usability, accessibility and performance. Currently at HVEX, leading projects from prototyping to production. Proactive and analytical, committed to quality deliveries.

PROFESSIONAL EXPERIENCE

Front-End Developer Analyst
HVEX | Itajubá - MG, Brazil | 05/2021 - Present

- Prototyping and building interfaces with React and Next.js (API Routes, SSR)
- Building reusable components
- Page performance and responsiveness
- High-performance chart integration (ApexCharts, Observable Plot)
- Docker for both tools, including the reporting one
- Shield-X: Built from architecture to production delivery.
- Mjolnir: Custom report generation tool, powered by Puppeteer.

Technologies: React, Next.js, TypeScript, Zustand, Context API, React Query, React Hook Form, Zod, Yup, GSAP, ApexCharts, Observable Plot, Puppeteer, Docker

Web Designer
Instituto Brasileiro de Coaching — IBC | 04/2019 - 05/2021

- Landing page development
- Inbound Marketing tools
- Development with HTML, CSS, JavaScript, jQuery and WordPress
- Prototyping in Adobe XD and graphic design in Photoshop and Illustrator

Technologies: HTML5, CSS, JavaScript, jQuery, WordPress, Adobe XD, Photoshop, Illustrator

Communication and Marketing Intern
FEPI — Fundação de Ensino e Pesquisa de Itajubá | Itajubá - MG, Brazil | 11/2018 - 01/2019

- Photoshop and CorelDRAW

Technologies: Photoshop, CorelDRAW

Development Intern
Support Informática | Itajubá - MG, Brazil | 09/2017 - 03/2018

- Development with HTML, CSS, JavaScript, jQuery, PHP and MySQL
- Admin dashboard for a client

Technologies: HTML5, CSS, JavaScript, jQuery, PHP, MySQL

TECHNICAL SKILLS

Front-end: React, Next.js, JavaScript, TypeScript, HTML5, CSS, Node.js, API Routes, SSR
State and data: Zustand, Context API, React Query
Styling, animation and charts: Tailwind CSS, Sass, styled-components, GSAP, ApexCharts, Observable Plot
Forms and validation: React Hook Form, Zod, Yup
Infra and version control: Docker, Docker Compose, Git, GitHub, GitLab
Tooling and process: Storybook, Design Systems, Vite, Webpack, Scrum

EDUCATION

B.Sc. in Information Systems
Centro Universitário de Itajubá — FEPI | 2015 - 2020

IT Technician
E.E. Comendador Mário Goulart Santiago | 2012 - 2014

COURSES AND CERTIFICATIONS

- curso.dev | In progress
- React: Hooks, Contexts and best practices | Alura | 8h · 2024
- React: Automating tests in front-end applications | Alura | 6h · 2023
- React: Component lifecycle | Alura | 6h · 2023
- Next.js: First dive into the framework | Alura | 6h · 2023
- JavaScript: Object-Oriented Programming | Alura | 6h · 2022

LANGUAGES

- Portuguese: Native
- English: Intermediate reading, basic listening; speaking in progress

KEY STRENGTHS

- Strong attention to detail and usability
- Teamwork and clear communication
- Proactive, with a strong sense of ownership
- Committed to quality, deadlines and continuous improvement
- Passion for development and innovation
- Logical reasoning and autonomy in problem solving
